Effective 2011-2012 school year, students entering the seventh grade will be required to show proof of having received a booster dose of Tdap(tetanus and diphtheria and acellular pertussis) vaccine.

There has been continuing outbreaks of pertussis across the US with increased rates among Teens (10 -19 years of age), In Oklahoma we have low Tdap immunization levels among our teens, with a higher Tdap immunization levels will help prevent an increase in the number of pertussis cases in Oklahoma.
